

## Our Learning Behaviours:

**Resourcefulness** - The resourceful learner is ready, willing and able to learn in different ways

**Resilience** - The resilient learner sees the value in their mistakes and doesn't give up following a setback

**Reflectiveness** - Reflective learners actively evaluate and improve their work. They also celebrate their own and others' achievements

**Relationships** - A learner who uses relationships effectively is ready, willing and able to learn alone and with others

**Respect** - A respectful learner treats others as they would wish to be treated. It is okay to think differently and it is fine to change your opinion.

**Risk taking** - Risk takers push themselves to try new things and like to ask "What if...? And "What shall we try now?"
