

Art in the Outdoors by Ruaridh, Ford Class

On Thursday the 14th of September, we had an Art club after school. First we all met at Miss Haswell's classroom. She showed us pictures that Andy Goldsworthy had made including pictures of stones that have been split in half, shaped like a spiral. Miss Haswell took us on to the field; there were other people on the field so we stayed by the trees. We decided that we would make circular pictures from nature.

Matilda, Eleanor and Lucy's group made a picture with different coloured leaves, twigs, apples and some feathers.

Archie, Charlie and Oliver, made an apple border with lots of leaves on the inside and what they called, 'the king apple' in the middle.

Sylvie, Poppy, Rosie and I made a picture with one apple in the middle with a feather on top. The second layer was a layer of golden leaves and third layer was white leaves and finally big green leaves.

The fourth group made a picture with feathers, lots of different coloured leaves, with a few apples as well.

We all had great fun and I can't wait for next week!
